our story

Changing lives...one cup at a time.

Steamers Coffeehouse is truly “A Different Kind of Bean.” Steamers opened in March 2007 with a vision that it is possible to run a business which is sustainable, successful and employs people with developmental disabilities, while offering our community a high-quality product.

Steamers began with one developmentally disabled employee and now proudly employs 25 individuals with developmental disabilities. By utilizing our employees’ abilities, everyone becomes a productive and valuable asset to our business. Steamers coffeehouse and wine bar offers a full menu of homemade items in a casual, welcoming atmosphere serving a variety of Coda coffees as well as premium teas from The Republic of Tea. We hand make all of our baked goods and provide our community with a variety of healthy breakfast and lunch items. We strive in every way to be sustainable using compostable paper goods and giving back to our community as often as possible. Now that’s progress directed by pure passion!

catering

Steamers offers off-site catering, **so call us for your next event!**
